Lagos, Nigeria · christopheramah1@gmail.com · +2348105938812 · github: ChristopherAmah

## EDUCATION

### Babcock University

Bsc Computer Science (Second class upper)

Ogun, Nigeria  
Sep 2020 - Jul 2024

## WORK EXPERIENCE

### Chevron Nigeria Limited

Data Foundation Intern / Scrum Master

Lagos, Nigeria  
January 2023 - June 2024

- Facilitated agile processes as Scrum Master for a data-focused team, improving sprint coordination by 50%, enhancing visibility, and prioritizing tasks using Azure DevOps to ensure timely project delivery.
- Applied SQL and Excel to support data migration and cleanup projects, boosting data accuracy by 15% and improving system efficiency, contributing to successful enterprise-level deployments.
- Built and optimized Power BI dashboards, driving 25% faster decision-making by providing key insights and actionable data for both technical and business teams, supporting strategic goals.
- Automated and streamlined internal data processes using Microsoft Forms, SharePoint, and Power Automate, achieving 30% improvement in operational efficiency and enhancing data integrity across teams.

### Google Developer Student Club, Babcock University

Lead Product Manager

Ogun, Nigeria  
September 2023 - July 2024

- Managed and facilitated technical teams in GDSC Babcock, guiding them through product development and release, ensuring alignment with project timelines and high-quality standards.
- Led the development of StudyStats, an app that helps students track and manage their CGPA goals and academic progress.
- Applied agile methodologies to set clear goals, organize tasks, and ensure team members understood their roles, ensuring smooth project execution.
- Gathered user feedback from students, making adjustments to improve app functionality and user experience, ensuring the final product met all user needs.

### Sheiks and Bishops

IT Consultant

Abuja, Nigeria  
January 2025 - April 2025

- Provided consultancy on secure data architecture and systems design for clients in critical sectors.
- Conducted data-driven research and analysis on UAE security infrastructure, providing actionable insights for the development of compliance-aligned security solutions.
